

Becky Franzen ~ MA, IBCLC

Becky Franzen earned her MA degree in health and wellness with a focus in lactation and is an International Board-Certified Lactation Consultant (IBCLC). She is a founding member of the WI Association for Tongue-Tie Professionals and has additional training to work with babies with tongue-tie difficulties.

As a mom of four breastfed girls, I know how wonderful, yet challenging, breastfeeding can be. My goal is to provide the resources and support necessary to help each mom and family be successful.

During consultations, we will work together to create an individualized care plan to improve any feeding challenges you may have. In addition to postpartum office consultations, I also offer in-home consultations, pumping assistance, flange fitting, tongue and lip-tie assessment and follow-up, and prenatal breastfeeding education.

When I am not working with families and babies, I enjoy spending time with my family, reading, music, and baking.
